Simple Melody

JoÃ£o Paulo

You know there's somthin' that's come over me
You know there's somethin' that set me free
You know you got somethin' that is on my mind
All the time, all the time
Life is just a party
Ya know ya in the right
You're the life of the party
It's alright, it's alright
Sparkles on your body
You know you're in the right
You're the life of the party
It's your night, it's your night
Chorus
Simple melody baby
Come and swing your love to me, baby
Simple melody lady
Come and swing your love to me, honey
You know there's something between me and you
Tell me your wish and I could grant it to you
Give me a reason any case I swear
Name a place anywhere, I'll take you there
chorus (repeat)
