Just Listen

Just Listen

If you just, if you just give a listen,
If you just, if you just give a listen,
If you just, if you just give a listen,
You might hear, every word that I'm missing...

Don't you know where we're going,
Can't you see where we been,
Don't say that you know what I'm saying,
Or that you understand...

If you just, if you just give a listen,
If you just, if you just give a listen...

Gonna tell you a secret,
Gonna speak from the heart,
Gonna say that I'm totally speechless,
At least that's a start...

If you just, if you just give a listen,
You might hear, every word that I'm missing...

Give me a chance,
Give me a chance just to prove it,
Just give me that,
You know, there ain't nothing to it...

If you just, if you just give a listen,
If you just, if you just give a listen,
If you just...
