

All That I Need Is to Be Loved (Speed Trance)

[Moby](#)

All that I need is to be loved
Can't you take this out of me?
All I want is to be near you
Oh my God, how can I love thee? All that I need is to be loved
Can't you take this out of me?
All I want is to be near you
Oh my God, how can I love thee? Oh my God No one other will need what I need
No one other can feel what I must feel
