

# Seal the Deal

## Volbeat

Sold my soul and singed my name in blood  
Stole it back now praying in the dark  
Fooled the devil  
Begging for a fight

Count the dollars make your bet tonightFeel strong like an oiled machine  
All the anger boils within  
Move it  
Give it

The high rollers are inI get groovy  
now turn it on and fight

Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage

Seal the deal and let's do it all againKnuckles crushed  
My eyes no longer see

I paid the price and fed the familyFeel strong like an oiled machine  
All the anger boils within  
Move it  
Give it

The high rollers are inI get groovy  
now turn it on and fight

Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage

Seal the deal and let's do it all againSing hallelujah  
The devil in disguise  
There'll be no more pearly gates  
So stand up for yourself this time

Fight for honor let no one drag you down no more

Be your own man with blood sweat tears you fallI get groovy  
now turn it on and fight

Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage

Seal the deal and let's do it all againI get groovy  
now turn it on and fight

Seal the deal and let's boogie for a while  
Let's get groovy  
Burning out with rage

Seal the deal and let's do it all again
