Glam

The Glam

Walk, turn, pose, stop
Give 'em what you got
Work those hips, side to side
Get that angle right
(Right)Paint your face like a movie queen
A naughty dream or a fantasy
Anything goes, gotta be the scene
Create a look, out a fashion bookLet's get glam, don't let the clothes wear you
Let's get glam, it's all in how you move
Let's get glam, don't let the clothes wear you
Let's get glam, it's all an attitude
Now snap, now snapHere we go, blush on, lashes long
Mascara strong, strong, strong
Lips, eyes, cheeks, face
Give it style graceBetter be ready for your photo op
Step in the light for your perfect close up
Be superficial, it's your one shot
Unleash the diva
(Diva)
Deep insideLet's get glam, don't let the clothes wear you
Let's get glam, it's all in how you move
Let's get glam, don't let the clothes wear you
Let's get glam, it's all an attitude
Now snap, now snapRunway on fire, fashion gods inspire
Lose control, inhibitions run wild
Get on the floor in your best couture
Come on and take me higherRunway on fire, fashion gods inspire
Lose control, inhibitions run wild
Get on the floor in your best couture
Come on and take me higherRunway on fire, fashion gods inspire
Lose control, inhibitions run wild
Get on the floor in your best couture
Come on and take me higherRunway on fire, fashion gods inspire
Lose control, inhibitions run wild
Get on the floor in your best couture
Come on and take me higherNow snap, now clap
Now dance, now stop
Let's get glamLet's get glam, don't let the clothes wear you
Let's get glam, it's all in how you move

Let's get glam, don't let the clothes wear you
Let's get glam, it's all an attitude
Now snap, now snap
