

Didja Know

Groove Theory

Didn't you know, I always said I'd be by myself?
Never wanted no man's money, didn't need no help
There was a time when I was all for love
But all it took was one heartbreak and I'd had enough
Just when I thought I had no reason
You come along and showed me life has just begun
Didja know I would go
Anywhere you roll 'cuz with you is home?
Does it show when I'm low?
You could ask me to smile and I'd do so
Baby didja know? I can't believe your treatin' me this way
All the words I need to be hearin', are the ones you say
Finally I got someone on my side
Never leave when times get hard 'cause you got nothing to hide
Just when I thought I had no reason
You came along and showed me life has just begun
Didja know I would go
Anywhere you roll 'cuz with you is home? Oh
Does it show when I'm low?
You could ask me to smile and I'd do so
Didja know? I think it's time I let you know
Wherever you are is where I'll go
No matter how far you know I'll show 'cuz it's all about you
I think it's time I tell you baby that I'll be your one and only
'Cuz when I'm with you it's like Heaven on earth
Didn't you know? Oh
Didja know I would go
Anywhere you roll 'cuz with you is home?
Didja know it?
Does it show when I'm low?
You could ask me to smile and I'd do so
Didja know? Didja know I would go
Anywhere you roll 'cuz with you is home?
Does it show when I'm low?
You could ask me to smile and I'd do so
