

So Good (feat. Rick Ross)

Delusional

yeah, yeah, yeah

i was smoking in alleys
the police can't catch me
and if there's a warrant
tell 'em come fetch me
pack come from cali
room, board and travel
if you want beef (boy)
then go find some cattle
i'm on a mission, i make decisions
2000 cadillac, 20 inches
if you an enemy you on my sh*t list
and that list long like my list of women
retaliation, there's no debating
doing my thing, keep up the hating
all people never wanted me to make it
i really love it, text smiley faces
my name delusional, don't forget it
catch me lifted on a pound of lettuce
typical smoker, sometimes forget sh*t
and when it come to a p*ssy i'm known to wreck it
i'm trying to see, so perfectly
pounds of green, birds and g's
break it down, surgery
i'ma keep smoking til they murder me

i can come through but i can't stay long
leave a little piece of myself in this song
feeling so good i know it cant be wrong
i ain't never finished til i say that i'm done
now she was smoking so good
want her to stay for the night, now won't she stay for the night
now you was smoking so good
so won't you stay for the night, now won't you to stay for the night

no p*ssing in hedges, i started with reggie
i'm talking asparagus i'm heavy on veggies
b*tch we balling and blowing, seven bottles of moët

your credit card declined, bottles had to go back
i know youâ€™s embarr*ssed, i smoke like a chalice
iâ€™m burning that kush, they can smell me in dallas
itâ€™s usually a p, nothing small as an o
iâ€™m just keeping it g, i might swap you with blow

i can come through but i canâ€™t stay long
leave a little piece of myself in this song
feeling so good i know it cant be wrong
i ainâ€™t never finished til i say that iâ€™m done
now she was smoking so good
want her to stay for the night, now wonâ€™t she stay for the night
now you was smoking so good
so wonâ€™t you stay for the night, now wonâ€™t you to stay for the night

i donâ€™t follow the rules and i donâ€™t play nice
iâ€™ll leave you burnt like the end of a pipe
and with all of my might, really i might
end your life by the end of the night
exposing little b*tches, that wanna come and get it
any one of you hoes, i pity
try to go toe to toe, iâ€™m with it
gossip like a little girl, admit it
gl*ss half empty, iâ€™m thirsty
you reptilian, like serpents
in the shadows in the corner, iâ€™m lurking
lyrically or physically, iâ€™m murking
if they wanna try me, iâ€™m worth it
iâ€™ll take you to school, come correct
delusional and rozay, itâ€™s perfect
streets ainâ€™t just hot, they burning

i can come through but i canâ€™t stay long
leave a little piece of myself in this song
feeling so good i know it cant be wrong
i ainâ€™t never finished til i say that iâ€™m done
now she was smoking so good
want her to stay for the night, now wonâ€™t she stay for the night
now you was smoking so good
so wonâ€™t you stay for the night, now wonâ€™t you to stay for the night

want her to stay for the night, now wonâ€™t she stay for the night
so wonâ€™t you stay for the night, now wonâ€™t you to stay for the night
