

One Last Run

Nickelback

Best of friends, where they all go?
Try to find but no one ever knows
This small town makes you wanna stay
Who the hell would want to anyway?
Well, I'm leavin'
And I want it all
Thought I got it all
Well, I finally saw and I found out
Where it's all at
Better now than all before
Tried it once and now I want it more
Memories are cut in half
Tell the truth and then I watch 'em laugh
Well, I'm laughin'
And I want it all
Thought I got it all
Well, I finally saw and I found out
Where it's all at

Sell it all
Watch and learn
Sell it all
Watch it burn
Steal a car, we're all headed south
Know the course just shut your mouth
One more run then I want out
Not like them, I'd rather go without
Without needing
And I want it all
Thought I got it all
Well, I finally saw and I found out
Where it's all at
Well, I knew it all
Well, I never fall
Well, I finally saw and I found out
Where it's all at
