

Before I'm over You

Loretta Lynn

I just can't get it through my head
You love another now instead
Can't make myself believe
We're really through I'm walking up and down the hall
Talking to a silent wall
I'll lose my mind before
I'm over you I think I've almost lost my mind
I think about you all the time
I'm going crazy yes I know
And I don't have far to go The way you treat me is a shame
But I'll keep loving you the same
I'll lose my mind before
I'm over you I keep your letters I should burn
I wear your ring I should return
But there's a million
Foolish things I do It makes me cry but you would laugh
To know I kiss your photograph
I'll lose my mind before
I'm over you I think I've almost lost my mind
I think about you all the time
I'm going crazy yes I know
And I don't have far to go The way you treat me is a shame
But I'll keep loving you the same
I'll lose my mind before
I'm over you
