Detonator

DetonatorHigh explosive girl you turn me on

So volatile like a walkin' atom bomb

(Just like a walkin' atom bomb)

Just takes one spark to kerosene

You go off like nitro glycerine

(You go off like nitro glycerine)The time is right to deviate

The supernatural cannot wait

I'll show you how to detonate, yeahI'm comin' up, I'm risin' from the flames

I've been born with fire in my veins

(I've been born with fire in my veins)The time is right to deviate

The supernatural cannot wait

I'll show you how to detonate, yeahDetonator

Detonator

Detonator

Detonator

Detonator

Detonator

Detonator

DetonatorBang, I'm in love

Baby, you're the bomb

I wanna make it, wanna take it

Wanna love you, wanna turn you onYeah, I wanna blow your mind

Yeah, I wanna blow your little mind

Ooo, I wanna detonate

I wanna detonate, I wanna detonate

Detonate, detonate, yeahThe time is right to deviate

The supernatural cannot wait

I'll show you how to detonate, yeahThe time is right to deviate

The supernatural cannot wait

I'll show you how to detonate, yeah
