I Never Noticed

Lil Chris

I never thought I'd have so many sleepless nights, over you
I never thought we'd have so many stupid fights, but we do
So I stole, your heart then the whole, thing starts to, fall apart...from the startChorus:
When you cried, I never noticed
When you lied, I never noticed it
When love died,I never noticed
I guess its true...
I never noticed youI never understand hearts only bend so far, 'till they break
I never took the time to find out who you are,
My mistake
I was so in love, with the whole idea of, being loved...
So in love.Chorus:
When you cried, I never noticed
When you lied, I never noticed it
When love died, I never noticed
I guess its true...
What did I do?
When you cried, I never noticed
When you lied, I never noticed it
When love died, I never noticed
I guess its true...I never noticed you
