

# Sing It

**Josh Wilson**

Sing it- Josh Wilson  
All the words in all the world could never say enough  
All the notes in my in my guitar could never say enough  
But you placed this song inside my heart and all I know  
to do for you is sing it  
No its not much but its what I've got and all I know to do for you is sing it  
I have tried so hard to find the perfect  
melody  
Nothing I could ever write comes close to your glory  
But you placed this song inside my heart and all I know to  
do for you is sing it  
No its not much but its what I've got and all I know to do for you is sing it  
ahhhhhh
