

I Walk for Miles

Dinosaur Jr.

I walk for miles
I came for you
Stop for a while
I came unglued Left get me tired
What's left to do
Left there so tired
Won't hold of you
In my state
In my loneliness
In the only place I wait I walk for miles
I came for you
Stop for a while
I came unglued Left get me tired
What's left to do
Left there so tired
Won't hold of you In my state
In my loneliness
In the only place I wait Set my heart is too
Set my beats on you I walk for miles
I came for you
I walk for miles
I came unglued Left get me tired
What's left to do
Left there so tired
Won't hold of you
