

Misfits

James Kennedy

When you know, you know
And you never forget
My heart still races out of control for you
Just like the moment we first met You're quirky and you're cool
You're beautiful right through
You're an adorably frustrating puzzle I can't crack
And I hope I never do You and me are misfits
That fit each other perfect
Sometimes I can't believe it
It's too good to be true
Everything I do
I always wanna share it with you
You're my best friend, you're my partner in crime
And I wanna grow old with you You're all my answers and all my reasons
You bring sunshine to all my seasons
You're more than just The One
You're my everything You and me are misfits
That fit each other perfect
I don't know how I deserve it
It's like a dream come true And I know that a thousand songs about you couldn't say it all
But I hope you know just how much I love you baby You and me are misfits
That fit each other perfect
Sometimes I can't believe it
It's too good to be true
You and me are misfits
That fit each other perfect
I don't know how I deserve it
It's like a dream come true
It's like a dream come true
It's like a dream come true
You're my dream come true
