

# Scattered Diamonds

## Hungry Kids of Hungary

Last night the weekend caught us up  
We fell in fits across the floor  
Scattered diamonds through your dress  
And curses through your door  
Ooooooh ooh ooh  
You want it you got it all  
And its the last time I sit by  
Saving face with all your friends  
Cause its one thing to remember  
And another thing to live again  
Ooooooh ooh ooh  
You want it you got it all  
Ooooooh ooh ooh, Ooooooh ooh ooh  
You want it you got it all  
Six sorry years and now the gloves are off  
Would it be easier if it was all my fault  
Ooooooh oh, whoa oh oh, woaaaaah  
Last night the weekend caught us up  
We fell in fits across the floor  
Scattered diamonds through your dress  
And curses through your door  
Ooooooh ooh ooh  
You want it you got it all  
And its the last time I sit by  
Saving face with all your friends  
Cause its one thing to remember  
And another thing to live again  
Ooooooh ooh ooh  
You want it you got it all  
And I wont be waiting for your call  
You want it you got it all  
Six sorry years and now the gloves are off  
Would it be easier if it was all my fault  
Ooooooh oh, whoa oh oh, woaaaaah  
You want it you got it all  
You want it you got it all  
You want it you got it all  
You want it you got it all
