Go Go

C.Dzen

Jay and James roll
Tape I'm ready to
Here I am, it's Friday night
I'm feeling good, the time is right
There you come, right out the crowd
And all that I can say is
I want you to know that I can rock you girl so
Come on let's go, I want you to see
I'm really feelin' you so if you're feelin' me
I want you to know that I can rock you baby
With the lights down low, I want you to see
I'm really feelin' you so, if you're feelin' me, go go
So you think you got it all together before you make a move
And get too deep
Don't you know that I can, love her better?
So give it up, go home and get some sleep
I want you to know that I can rock you girl so
Come on let's go, I want you to see
I'm really feelin' you so if you're feelin' me
I want you to know that I can rock you baby
With the lights down low, I want you to see
I'm really feelin' you so, if you're feelin' me, go go
I must have been mistaken for another
You over looked the fact that I'm your
Older brother, don't you know the girl, she wants me
So look in the other direction and go and get some
I want you to know that I can rock you girl so
Come on let's go, I want you to see
I'm really feelin' you so if you're feelin' me
I want you to know that I can rock you baby
With the lights down low, I want you to see
I'm really feelin' you so, if you're feelin' me, go go, go go
