Light In Your Eyes

Flyleaf

Pour the wine, light revives
Lowering walls that divide
Kings and queens yearn to seek
Love in all its mystery
When all we wanted was love
We got cut up and burned
But there's a light in your eyes
And it tells me that God is on our side
The waning moon, your sweet perfume
Incense for the holy ones
Secret hymns pour from your lips
Healing for this broken soul
We'd drive late and let the music tell our fate
For me this is heaven, drown our fears
And we may age, if we do not die today
Until then we'll let this music be our prayers
When all we wanted was love
We got cut up and burned
But there's a light in your eyes
And it tells me that God is on our side
And all we need now is love
We've been through enough
We can't run just 'cause we're scared
Come this far, we're not giving up
All we need now is love
We've been through enough
We can't run just 'cause we're scared
Come this far, we're not giving up
And all we need now is love
We've been through enough
We can't run just 'cause we're scared
Come this far, we're not giving up
And all we need now is love
We've been through enough
We can't run just 'cause we're scared
Come this far, we're not giving up
