Invidia

YOHIO

Every night is a burden
It's 5 AM and I still can't seem to sleep
I close my eyes to be certain
'Cause spending time with my thoughts is killing me
Passing through all the sorrow
I put my faults in a pile of misery
I hope I'm still here tomorrow
'Cause I'm not ready to leave my historyThe seasons change while I stand still
An empty shell surrounding me
Another day
A different time
I hope I learn how to handle the pain
I just want you to see meFeeling trapped in a habit
Still believing the lies I tell myself
Trying hard to forget it
Falling deep into your forgiving armsThe seasons change while we stand still
An empty shell surrounding us
So many things I want to say
But you will never understand
Forever
Together
Can someone take away my pain?
Together
Forever
I'm not the only one to blame
InvidiaThe seasons change while we stand still
An empty shell surrounding us
So many things I want to say
But you will never understand
Forever
Together
Can someone take away my pain?
Together
Forever
I'm not the only one to blame
