

Rock You To Hell

Grim Reaper

Yeah, rock you to hell
Rock you to hell What's wrong with our society
Is it fear or apathy?
Don't let other people run your life So those with power don't use it
They simply abuse it
And believe me that cuts me like a knife Gotta make sure that this don't happen
'Cause to me and you it just ain't right
Gonna make damn sure it don't happen
This is what I'm gonna do Rock you to hell
Packin' up and shippin' out
Rock you to hell
Hear them scream and shout Rock you to hell
But I'm never giving out
Rock you to hell
Rock you to hell Did you always do what momma said?
Brush your teeth and go to bed
'Cause that way never worked for me Now they wanna censor music
And if we don't fight we'll lose it
It's only entertainment, can't they see? We gotta make sure that this don't happen
'Cause to me and you it just ain't right
Gonna make damn sure it don't happen
This is what I'm gonna do Rock you to hell
Packin' up and shippin' out
Rock you to hell
Oh hear them scream and shout Rock you to hell
I'm never giving out
Rock you to hell
Rock you to hell Is this the beginning of a future?
No books, no sound, no rock 'n' roll
With only a few to fight the many
This is why rock 'n' roll will never die We gonna make sure that this don't happen
'Cause to me and you it just ain't right
Gonna make damn sure it don't happen
This is what I'm gonna do Rock you to hell
Packin' up and shippin' out
Rock you to hell
Hear them scream and shout Rock you to hell
But I'm never giving out
Rock you to hell Rock you to hell

Rock you to hell
Rock you to hell
Oh, rock you to hell
