

# Don't Come Back Knockin'

## Buddy Holly

Well, I found you're a rover  
And it's made me blue  
Like a talent scout  
You want some love that's new  
Don't come back knockin'  
At my heart's closed door  
For I won't be home  
Don't call an' knock no more  
Well, when you went away  
And left me all alone  
While you played around  
I waited at home  
Don't come back knockin'  
At my heart's closed door  
For I won't be home  
Don't call an' knock no more  
You had all my heart

It was your very own  
You weren't satisfied  
Now, I'll go on alone  
Don't come back knockin'  
At my heart's closed door  
For I won't be home  
Don't call an' knock no more  
Oh, let's really knock it this time boys  
Well, pity those with hearts  
So empty and cold  
To never know true love  
A treasure to hold  
Don't come back knockin'  
At my heart's closed door  
For I won't be home  
Don't call an' knock no more
