

We Could Happen

[AJ Rafael](#)

Verse 1:

I'll hold the door

Please come in

and just sit here for a while.

This is my

way of telling you I need you in my life. It's so cold
without your touch.

I've been dreaming way too much

Can we just

turn this into reality. Chorus:

Cause I've been

thinking 'bout you lately.

Maybe you could save me,
from this crazy world we live in.

And I know we could happen,
cause you know that I've been feeling you. Verse 2:

Storms they will come

but I know,

that the sun will shine again.

He's my friend,

and he says that we belong together.

I'll sing a song,

to break the ice.

Just a smile from you would suffice.

It's not me, being nice

but this is real tonight. Chorus:

Cause I've been

thinking 'bout you lately.

Maybe you can save me,
from this crazy world we live in.

And I know we could happen,
cause you know that I've been feeling you.

I know you want me. Bridge:

There's no other,

there's no other love.

That I'd rather have,

you know.

There ain't no one,
there ain't no one else.

I want you for myself.Chorus:
I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.
And I know we could happen,
cause you know that I've been feeling you.
I know you want me.I've been
thinking 'bout you lately.
Maybe you can save me,
from this crazy world we live in.
And I know we could happen,
cause you know that I've been feeling you.
I know you want me to.
I know you want me to.
