When the Time Comes

No Fun At All

Saw you through a telescope, saw you undressing
Couldn't reach you and I couldn't touch
My eyes caressing, I'll get her
(I'll get her)When the time comes
It's all that matters
I'll get her
(I'll get her)When the time comes
It's all that matters to me
They're all the same
They're all the sameWaiting for the final sign
Now getting anxious
Contemplating for a little while
Never be nervousI'll get her
(I'll get her)
When the time comes
It's all that mattersI'll get her
(I'll get her)
When the time comes
It's all that matters to meThey're all the same
They're all the sameI'll get her
(I'll get her)
When the time comes
It's all that mattersI'll get her
(I'll get her)
When the time comes
It's all that matters to meThey're all the same
They're all the same
