Thanks For The Beautiful Memories

Hawk Nelson

Started out, we were 17
Bought a van and we hit the scene
Didn't know exactly what to do
Finished school, got our band on track
Signed our first record contract
Never thought our dreams would all come trueEverything we ever wantedWe just wanna thank You
For all that we've been through together
Dreams become reality
And we just wanna thank You one more timeLeft home, Ontario
Heard our song on the radio
Never knew that life could be this way
Loved a girl and she loved me
Bought a house in Tennessee
I thank God for blessing me each dayEverything we ever wantedWe just wanna thank You
For all that we've been through together
Dreams become reality
And we just wanna thank You one more timeWe'll never thank You enoughWe just wanna thank You
For all that we've been through together
Dreams become reality
And we just wanna thank YouWe just wanna thank You
We just wanna thank You one more time
