Dominoes

Wildboyz

It's an idea someday In my tears, my dreams Don't you want to see her proof? Life that comes of no harm You and I, you and I and dominoes The day goes by You and I in place Wasting time on dominoes A day so dark, so warm Life that comes of no harm You and I and dominoes Time goes by Fireworks and heat someday Hold a shell, a stick or play Overheard a lark today, losing when my mind's astray Don't you want to know with your pretty hair? Stretch out your hand Glad feel in an echo for your wayIt's an idea someday In my tears, my dreams Don't you want to see her proof? Life that comes of no harm You and I and dominoes The day goes by
