Control

Eldest 11

They told me to kill the things I loved most...
The ones I loved the most....
In the affection for the quality....
Nothing can ever tear you away from me....I feel them coming near.....And engulfing me...
Thrown earthward! Held down because you can't feel me....
You don't believe....What they are capable of...
I am strung about...No voice left to shout....So what if I....Talk to the dead...
I've already lost everything I had....(I've never had nothing)...
Visions of an endless snow....(I can't control)
I've lost control...(Sucked in the undertow)
Beautiful, empty, feelings.....Catatonic eyes.....All the things we hide...
Another Revolver in mind...Dim lights and blurry faces....
Become the legions...Not easily replaced.....I feel them coming near....and I get held down...
They tell me open...and no one hears me scream....
I am falling apart....Prescriptions running too low...
I can't close the gate....My eyes are changing....So what if I....Talk to the dead...
I've already lost everything I had....(I've never had nothing)...
Visions of an endless snow....(I can't control)
I've lost control...(Sucked in the undertow)
Beautiful, empty, feelings.....Stains.....Last forever.....
Stains.....Last forever....Catatonic eyes....So what if I....Talk to the dead...
I've already lost everything I had....(I've never had nothing)...
Visions of an endless snow....(I can't control)
I've lost control...(Sucked in the undertow)
Beautiful, empty, feelings.....
