

On Top

The Killers

Remember Rio and get down
Like some other DJ, it's another town
She's been trying to tell me to hold tight
But I've been waiting this whole night But I've been down
Across the road or two
But now I've found the velvet sun
That shines on me and you In the back, uh huh
I can't crack we're on top
It's just a shimmy and a shake, uh huh
I can't fake, we're on top, we're on top The day is breaking, we're still here
Your body's shaking, and it's clear
You really need it, so let go
And let me beat it, but you know That I've been down
Across the road or two
But now I've found the velvet sun
That shines on me and you In the back, uh huh
I can't crack we're on top
It's just a shimmy and a shack, uh huh
I can't fake, we're on top, we're on top We bring the bump to the grind, uh huh
I don't mind, we're on top
It's just a shimmy and a shack, uh huh
I can't fake, we're on top, we're on top And we don't mean to satisfy tonight
So get your eyes off my bride tonight
'Cause I don't need to satisfy tonight It's like a cigarette in the mouth
Or a handshake in the doorway
I look at you and smile because I'm fine And we don't mean to satisfy tonight
So get your eyes off my bride tonight
'Cause I don't need to satisfy tonight It's like a cigarette in the mouth
Or a handshake in the doorway
I look at you and smile because I'm fine, oh
