Shafted

Hey Monday

Almost didn't see it coming
Caught it before fallin'
Close call, that's all, that this will remain
I feel sorry for the next one
I keep you in my pocket
Close you just like a locket
I'll come for you when I want it
How does it feel to be shafted?
Before you are erased from my brain
You should know just one thing
I've had better, it's no sacrifice
Goodbye to my Mrs. Nice Guy
I keep you in my pocket
Close you just like a locket
I'll come for you when I want it
How does it feel to be shafted?

Satire aside
It was a pleasant ride
For once it is clear
Only took me two years
Satire aside
It was such a pleasant ride
Satire aside
It was a pleasant ride
I keep you in my pocket
Close you just like a locket
I'll come for you when I want it
How does it feel to be shafted?
I keep you in my pocket
Close you just like a locket
I'll come for you when I want it
How does it feel to be shafted?
