No Way Out

Missing Persons

No Way - no way out
No way - no way outI'm watching all my friends
Searching so desperately
They think they know but they don't really see
They can't find peace of mind
They're wasting all their time
Looking for something
That they'll never findI face the music n dance
Be what I have to be
There's no escapin from it now for meWho cares what it all means?
'Cause there can be no doubts
You won't find me searching
For an easy way... outNo way - no way out
No way - no way outEveryone's so afraid
In this atomic age
Can't seem to handle livin' day to dayBecomin so confused
They don't know what's in view
They seek escape in everything they doI've had my fill of kicks
I'm tired of drugs and sex
And I don't worry 'bout what's happening nextWho cares what it all means
'Cause there can be no doubts
You won't find me searchin'
For an easy wayI'm not searchin for a way out
I'm not searchin for a way out
I'm not searchin for a way out
You won't find me searchin for an easy way out
I'm not searchin for a way out
All you wanna do is seek escape escape escapeNo way out
No way outI know - no way out
There's no way out for me
I know - no way out
Just what i have to beNo way - no way out
No way - no way outDays go by - no way out
It's getting late
Don't you know - no way out
You're tempting fateNo way - no way out
No way - no way out
