Charity Case

Cee-Lo

Give, give, give it away now
Give, give, give it away now
Give it away now
Give it away now
I, I, I, I don't know what matters to you at this monument
But that's all that matters to me
How are you , knock on wood
Well, I'm not doing so good
And I don't understand how I'm so understanding
I guess that that's all I can be
How are you, I think I can help
But I can't help myself
Oh, can't ya see, oh, can't ya see
If I help somebody, baby, there's mercy for me
Ahh charity
Go for a part of you baby
But I'm bleeding to
Are you needing me like I'm needing you
Even my shadow leaves me all alone at night
Guess, I need to start to take my own advice
Oh, can't ya see, oh, can't ya see
Somebody's a liar whoever set free that was free
Ahh charity
Give, give, give it away now
Give, give, give it away now
Give it away now
Give it away now
Alright, yeah, [Incomprehensible]
Charity
You beta give to somebody
