

You Can't Stop Me

[Guano Apes](#)

Someone is coming out to see the light of our destination
A maniac neurotic fool who wants to jump off the isle
How can you know that I'm the one who lives the maddest vacation
Another road another trial
Where's the difference
Tell me right You can't stop me
To love the world with all its lies
You can't stop me
I'm close enough to kiss the sky
Keep it to myself Why are you coming out to see the road of last destination
I won't look back for the shadows
They're growing up to me
We're trapped in this song so we leave them to head our salvation
Another you another me
Where's the difference, tell it to me You can't stop me
To love the world with all its lies
You can't stop me
I'm close enough to kiss the sky
Keep it to myself
