Metal Gods

Judas Priest

We've taken too much for granted
And all the time it had grown
From techno seeds we first planted
Evolved a mind of its ownMarching in the streets
Dragging iron feet
Laser beaming hearts
Ripping men apartFrom off, I've seen my perfection
Where we could do as we please
In secrecy this infection
Was spreading like a diseaseHiding underground
Knowing we'd be found
Fearing for our lives
Reaped by robot's scythesMetal Gods, metal GodsMetal Gods, metal GodsMachines are takin' all over
With mankind in their command
In time they'd like to discover
How they can make their demand?Better be the slaves
To their wicked ways
But meeting with our death
Engulfed in molten breath
