

Torn To Shreds

[Def Leppard](#)

I don't wanna fall in love
But it's been taken outta my hands
And right now I realize
I don't wanna say goodbye
I miss you more than words can say
They never turn out right
But here goes anyway
Everyday I miss your touch
Never thought it would mean so much
All the words I could've said
Got me reeling, torn to shreds
Every road I go is nowhere
But I know you're out there somewhere
These voices in my head
Got me feeling torn to shreds
I can't help the way I feel
That something's got a hold of my heart
It hurts but I can't let go
Now I just wanna let you know
I need you more than words can say
They never turn out right

But here goes anyway
Everyday I miss your touch
Never thought it would mean so much
All the words I could've said
Got me reeling, torn to shreds
Every road I go is nowhere
But I know you're out there somewhere
These voices in my head
Got me feeling torn to shreds
If I ever get myself together
And it takes whatever it takes
To get myself back to you
Everyday I miss your touch
Never thought it would mean so much
All the words I could've said
Got me reeling, torn to shreds
Every road I go is nowhere

But I know you're out there somewhere
These voices in my head
Got me feeling torn to shreds
