

My Love (Live Version)

Mercury Rev

Ain't it amazing when the seasons begin, to change
Someone behind the scenes just seems to pull some strings
I've struggled with an old angel all night long
And I thought it might be nice if we just talked until dawn I never never gave you enough
I could've given you my love They say that Mary Magdalene, had it real bad
She took her baby and she headed, off to France
New situation's don't present themselves, at first
If I was her I don't know where or to who I'd have turned I never left you with too much
I could've given you my love I hear of people living deep inside of, the earth
They've got their own sun and some claim they were here first
I've struggled with an old angel all night long
And I thought it might be nice if you stayed here until dawn I know I left you alone too much
But I now I need you here my love I never thanked you enough
I could've given you my love
