## NoMeansNo

Can you picture me standing there?  
I see it can you picture me way up there?  
I see it now my whole life  
I see it now my whole damn life  
Teresa, what would you die for? What would you die for?  
What would you die for, teresa? What would you die for?Teresa, give me that knife give me  
That knife teresa, give me that knife give me that knife teresa  
Can you picture me there?  
There I m almost there  
I'm almost there I m almost there  
Teresa, what would you die for? What would you die for?  
What would you die for, teresa? What would you die for?  
Teresa, give me that knife teresa, give me that knife teresa,  
Give me that knife teresa, give me that knife teresa
