Hearts

Juliette Commagere

I am from the city
I like my cars fast and pretty
Things have happened here
That will never disappear
'Cause in my mind they're alive and giddyAnd now they won't stop
They won't stop
And now they won't stop
I gave a good shoutI swim in the ocean
I like the salt, I sway with the motion
There are rocks and cliffs down here
That will one day disappear
They call me out to join themAnd now they won't stop
They won't stop
And now they won't stop
I gave a good shoutI live in the land of plenty
I get what I want in the twenty first century
What comes remains unclear
But still I persevere
And so I'll take until they forget meAnd now I won't stop
I won't stop
And now I won't stop
I gave a good shout
I gave a good shout
I gave a good shout
