

# Feast Of Fools

## Death SS

I'm the lord of disillusion drugged-up for the rave  
Join the unholy party with no masters and no slaves  
Wear your leather mask and then brand my altar boys  
Ride the restless mammeles and abuse'em just like toys  
Tonight we're gonna burn this town  
    Tonight we'll change the rules  
    We'll set the world upside-down  
This is the feast of fools  
Eat out from my flesh while clergy is say mass  
    Sing a filthy song and show rage making a mess  
    Pray to the crossdresser before entering the church  
Stain the walls around you with a stinking bloody-smirch  
Tonight we're gonna burn this town  
    Tonight we'll change the rules  
    We'll set the world upside-down  
    This is the feast of fools
