

# Little More Time

Milow

an eyelash on your cheek crashed down and broken  
decided to leave so it jumped on a tear  
since '94 you've been wanting to grow up  
since '94 been trying to get out of here

I don't wanna find out whatever I needed  
I'm way too afraid of what I could find  
you're losing the thread while I'm losing my head  
I wish that I will make up my mind

don't write me off  
because I should try hard enough  
I just need a little more time  
don't write me off  
because I haven't tried hard enough  
I just need a little more time

the closer we get the more it looks like we've made it  
I finally like this time of year  
the closer you look we get less overrated  
I hope that next week you'll still be here

an eyelash on your cheek crashed down and broken  
decided to leave so it jumped on a tear  
since '94 you've been wanting to grow up  
but just like your eyelash you didn't get far
