Force Fed

Air Waves

Animal, you're an animal...
No one knowsYou're a goddamn fucking animal
It sucks you in... pulls you in
One never breaks if you never bendFace your fears: you gotta face your fears
Don't ever try, don't ever win
You gotta ride...
Animal, you're an animal... you're a goddamn fucking animal
We'll find a way to love again
Force Fed to the worldWe're young
And we'll find a way...
And we'll find a way...
Find a way to the world
No shades of grey... just seas of redTo bathe in what makes you whole
What makes you whole?
