Angel Owl

Little Green Cars

On stormy nights
She waits outside
Her eyes so black
Her feathers white
I kick the fire
Put out the light
Burning embers
Cross the skyOnly at dawn does my angel singThe crystal wings
They cut like blades
Knock down the strong
Scaring the brave
One muddy sword
One angel owl
We won that war
We're safe for nowBut only at dawn does my angel singOnly at dawn does my angel sing
