

Still Love Remains

Seal

How will I stand if you turn out the light
That shines over me? That shines over me
And how will I live if you take all the give
That you have for me? That you have for me Without so madly
Without so fast
Yet still we remain How will I love if you take all the life
From out of me? Right from out of me
Tell me, how will I live if you take all the give
That you give to me? We burned so brightly
Love so fast
Yet still we remain Ohh, 'cause we'll live
And we give today I, yeah
But don'tcha know?
You know, you know
You know, I know, you know And I said, I, yeah
Now, don'tcha know?
You know, you know
You know, I know, you know And I said, I, yeah
Now, don'tcha know
You know, you know
You know, I know, you know Tell me, how will I live
With anyone but you, babe?
Anyone but you, babe
With anyone but you
With anyone but you
With anyone but you
