

# Take Me Away

## Globus

Kneel, kneel in silence  
My spirit bears me  
Pray for guidance, towards home  
In darkest hours

Kneel (dream with your dream we travel)  
In silence (empires of faith unravel)  
Alone (sealed with our virtues' treasures)  
Kingdoms falling

Down (who's hand commands the thunder)  
In silence (cry as we're torn asunder)  
Alone (unto what gods do I call?)  
Protect us in our...

Fall away, my soul wandered  
Born by grace  
I flew on high, sheltered from this thunder  
Calling heaven...

Take me away from time and season  
Far, far away we'll sing with reason  
Prepare our throne of stars above me  
As this world once known will leave me

Take me away upon a plateau  
Far, far away from fears and shadow  
Strengthen my heart in times of sorrow  
Light the way to bright tomorrows

Answer our call in desperate hours  
Shelter our fall from earthly powers  
Temper our souls with flame and furnace  
Bear us toward a noble purpose

Heave hides nothing in its measure  
Mortal men blinded by false treasure  
Formless and vanquished we shall travel  
Shield and sword will guide our battle

Take me away from time and season  
Far, far away we'll sing with reason  
Prepare a throne with stars above me  
As the world once known will leave me

Take me away upon a plateau  
Far, far away from fears and shadow  
Strengthen my heart in times of sorrow  
Light the way to bright tomorrows

Heave hides nothing in its measure  
Mortal men blinded by false treasure  
Formless and vanquish we shall travel  
Shield and sword will guide our battle

Salvation comes in desperate hours  
Angels on high proclaim their powers  
Lead us from chaos we shall follow  
Bear us to a bright tomorrow
