

# With One Eye On Getting Their Pay

McCarthy

With one eye on getting their pay  
The lackeys of the well-off say  
That we always are the best  
And new ways get us nowhereNothing changes, nothing changes, for the bestLook in the bible you will see how  
The people went on the same as now  
They cheated and lied the same  
They loved and died the same  
Nothing changes, nothing changes, for the bestThe well-off pray there'll be no more change  
To the perfect world they've made  
After all if fair Britain stays the same  
They'll hold onto their ill-gotten waysWhenever the mentally unsound  
Try to turn our lives upside down  
They hope to improve the world  
They have only made it worseNothing changes, nothing changes, for the bestThe well-off pray there'll be no  
more change  
To the perfect world they've made  
After all if fair Britain stays the same  
They'll hold on to their ill-gotten things  
With one eye on getting their pay  
The lackeys of the well-off say  
That we our always the best  
And new ways get us nowhereNothing changes, nothing changes, for the best
