

Doin' Dirt

Maroon 5

Hey you, don't wanna love you on the telephone
You hang it up and I am all alone
Baby, you got me doin' dirt, doin' dirt, doin' dirt
And now, I want to find you but you're on the run
My heart's exploding like a burnin' sun
I know you like it when it hurts, when it hurts, when it hurts
Hold me, we're dancin' in the dark of the night
You're shinin' like a neon light
I light you up when I get inside
So won't you touch me, 'cuz everybody's watching us now
We're puttin' on a show for the crowd
So turn it up, baby make it loud
Hey you, say that you're only having fun and then
You call me up at 3 am again
Baby you got me doin' dirt, doin' dirt, doin' dirt
And now, all that I got is just a microphone
To let you know that I am all alone
I know you like it when it hurts, when it hurts, when it hurts
Oh! So, hold me, we're dancin' in the dark of the night
You're shinin' like a neon light

I light you up when I get inside (ohhh ohh oh yeah)
So won't you touch me, 'cuz everybody's watching us now
We're puttin' on a show for the crowd
So turn it up, baby make it loud (yeahh come on)
So right now I wanna leave with you right now
I wanna be with you all night, get in the car and let's go
Yeah lets take it ho ho home
Lets take it ho ho home
Lets take it ho ho, ho ho, ho ho home
So right now I wanna leave with you right now
I wanna be with you all night, get in the car and let's go
Yeah lets take it ho ho home
Lets take it ho ho home
Lets take it ho ho, ho ho, ho ho home
Oh!
Hold me, we're dancin' in the dark of the night
You're shinin' like a neon light
I light you up when I get inside (yeah yeah yeah, gonna get inside yeahhh)

So won't you touch me, 'cuz everybody's watching us now
We're puttin' on a show for the crowd
So turn it up, baby make it loud
