Bailey

John Clinebell

Bailey
Waking in my leather jacket
Could it be that I
Could it be that you're distracted?
Wrapping our arms around
And never running out
The secret has been found
No more waiting
There is no more waiting

Bailey
The day that our eyes met
Not gonna lie
It's like trying to describe a sunset
And that's new infatuation
Our starry revelation
Leaves no doubt that I will be here

Believe in now
It only walks around
On your love
On your grace
On that look on your face
Put your hand on my heart
You'll feel it race

Bailey
Stay with me now
Make it last
There's nothing behind your smile
From my past
And that's new infatuation
Our made up consolations
Falling asleep on the roof
Alone with you
Alone with you

You're my one
You're my love
