Life Just Gets Better

Human Nature

In your eyes there's things telling me
You can't take it much longer
Don't cry, leave it all up to me
And I, I'll be all you need, let it be
Blame it all on the way that love can fall
Let the music take control
Take a chance if you dare
Ain't going nowhere
Life just gets better
When the writing's on the wall
Take the rise, don't take the fall
Take a chance if you dare
Ain't going nowhere
Life just gets better
Baby, you've been wasting your time
But there's always tomorrow
Don't you weigh this blame
On your mind
C'mon baby, just let it go
Don't cry, leave it all up to me
And I, I'll be all you need, let it be
So let me hold you
And show you a better way
Just let me open your eyes
Know that you're gonna survive
Baby, don't cry
