Everybody's Weird Except Me

Stereolab

The most beautiful
Of dreams sense nothing
As long as it is not the reinforcement
Experience of individualIt's not just fixed in the head
Left for it to penetrate
And find its way through to the heart
We might need to [Incomprehensible] move itInexpressible
Find your way to the heartIt's not just fixed in the head
Left for it to penetrate
And find its way through to the heart
We might need to [Incomprehensible] move it
