

Clare

Annihilator

Time keeps on ticking away
Another day of disease
I'm looking for someone special
Crawling on my hands and my knees
Somebody turn the lights on
I can't breathe the air
Won't someone help me
Find my little Clare? I want you to see me
When the lights go down
I wish you could be me
When the lights go down I can't stop thinking of you
You're always on my mind
I see you in the shadows
I see you all the time
You never talk to me
And you're never there
I'm getting tired of all this
And you don't even care
I want you to see me
When the lights go down
I wish you could be me
When the lights go down I'm running out of time
I'd do anything at all
I want you to see me
When the lights go down
Twisting and turning, my body is burning
Their poison was deep down inside
No one will listen, they made the incision
Now something inside me has died
Twisting and turning, my body is burning
Their poison was deep down inside
No one will listen, they made the incision
Now something inside me has died
Come take Alice, now
Come take Alice, now
Look at Alice, now
Come take Alice, now
Come take Alice, now
Come take Alice, now
Look at Alice, now
Come take Alice, now
I wrap my arms around you
Protect you from the night
I'll save you from this madness
Make everything all right
Get back, don't come any closer
Or I'll crush you with all of my might
White man with a needle

A cocktail, a schizo delight
I want you to see me
When the lights go down
I wish you could be me
When the lights go down
I'm running out of time
I'd do anything at all
I want you to see me
When the lights go down
(The lights go down)
I'm running out of time
I'd do anything at all
(Anything at all)
I want you to see me
When the lights go down
(The lights go down)
When the lights go down
