Carry Your Will

The Mowgli's

Mmm mmm mmm mmmCherish this cause when it doesn't last you'll wish you had
I will cherish this
I will be humble again
What will it take to get me to get where I'm going
Do you know the way?
Do you know when the tunnel ends?Lord have mercy on meMmm mmm mmm mmmI see house of lies built upon a foundation of sand.
Th was our home
That was our life, but we fell in
Then it was dark and we could see no more
But somehow we found each other
Somehow we found hopeIf you carry your will, I will carry my will
If you carry your will, I will carry my will
If you carry your will, I will carry my will
If you carry your will, I will carry my willLet your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faith
Let your faith guide your faith, let your faith guide your faithIf you carry your will, I will carry my will
If you carry your will, I will carry my will
If you carry your will, I will carry my will
If you carry your will, I will carry my willLet your faith guide your faith
Let your faith guide your faith
Let your faith guide your faithMmm mmm mmm mmmCherish this cause when it doesn't last you'll wish you had
