Don't Let It Go

Schism

I saw you creeping through the darkness
I had the light on my side
I caught your eye from the corner of the door
As you tried to be preciseI know you tried to keep the windows open
But the wind keeps howling through this place
And I know what you have trying to do
Because I know that look upon your face(Chorus)
Dont let it go tonight
Dont let the foundations fall
Just pick up the pieces
From where we left off
I dont want to see you fall
Dont let it go tonightYou speak with a constant tongue
Youve been obsessed by our love
Now we reach out to find an empty hand
Seems a lost soul is not enoughYou know you tried to let me know before
The best ways that you could
But I cant see the sense in saying
You let the wolf come out of the woods(Chorus)
Dont let it go tonight
Dont let the foundations fall
Just pick up the pieces
From where we left off
I dont want to see you fall
Dont let it go tonight
Dont let it go tonightMusic by/ Richard Johnstone
