Walking With Thee

Clinic

As you climb up the stairs
And come back forever
Summer's in the house
Untamed it wasWalking with thee
Walking with thee
Walking with thee
Walking with theeA million joys
A million joys here
You could set your watch
How untamed it wasWalking with thee
Walking with thee
Walking with thee
Walking with thee
No, no, no, no, no
No, no, no, no, no, noAs you climb up the stairs
And come back forever
Summer's in the house
Oh, untamed it wasWalking with thee
Walking with thee
Walking with thee
Walking with theeAnd melody of joys
And you can set your watch
While hunting new wordsWalking with thee
Walking with thee
Walking with thee
Walking with theeAnd with us, oh no
You get good affection
You can set your watch
Or hunting new wordsWalking with thee
Walking with thee
Walking with thee
Walking with theeNo, no, no, no, no
No, no, no, no, noIf you climb off the stairs
And come back forever
Someone's in my house or
Hunting new wordsWalking with thee
Walking with thee
Walking with thee
Walking with thee
